Summary

Snap-in-case and stand for Raspberry Pi Zero (W) and Zero 2 (W)

[Hobby & Makers](#) > [Electronics](#)

Tags: [enclosure](#) [raspberrypi](#) [snapfit](#) [raspberrypicase](#) [raspberrypizero](#) [raspberrypizerow](#) [snapin](#) [pizero2w](#) [raspberrypizero2w](#) [pizero2wcase](#) [rpizero2w](#) [slimraspberrypizero2wcase](#)

The case is based on the [Raspberry Pi Zero W Snap-In Case](#) Remix of [Bigjeffrey](#).

I modded it and designed a stand for it.

The V1 stand is friction fitted and I havent tested the V2 yet.

If you want to use a heatsink, I would recommend installing it after the RPi is inserted into the case, otherwise you may have problems closing the case.

I have testet it with RPi Zero and Zero 2. Both fit great in the case.

If you want to use a Raspberry Pi Camera (V. 1.3, V. 2 or HQ) it should work fine. But I have tested it only with the V. 1.3.

Printed the stand with 0.3mm and the case with 0.2mm layerheight.

This remix is based on

Raspberry Pi Zero W Snap-In Case

by Bigjeffrey
